I have been watching Top Gear and have my car buyer's eye on a [used BMW X5](#). I know how expensive these luxury four wheel drive vehicles can be to run, service, tax and insure and that does put me off a little. However, I have performed several searches on Google for BMW X5 review and they are generally positive. Big Motoring World in Kent have a huge selection of used cars available and I particularly like one car they have advertised. This is a cheap used BMW X5 grey colour 3.0d se 5dr.
